

GAYETRI GROUP

Perfection and Excellence Personified.
We take pride in our Quality and Reliability

ABOUT GAYETRI

We would like to introduce ourselves as a leading manufacturer of Castings and forged components and parts in semi - finished and finished machined condition based in India. We manufacture turned and milled components to the customer specific requirement. We have our own Tool Room, Heat Treatment and Quality Inspection facilities.

We are ISO 9001:2015 Certified turned component, pressed component, machined component, forged component and cast component manufacturer.

We are regularly supplying to various industries like Defence, Aviation, Railways and High Voltage Electrical Transmission Industry.

We have a reputation of a quality supplier in Indian Defence Industries and have been exporting our Products with an extremely good response from the overseas buyers. With a strong infrastructure and a sound financial base the GAYETRI GROUP is set to take quantum leaps of growth and play a vital role in trade and industry.

DEFENCE

Description

We are engaged in providing Defence Manufacturing service to our clients. Our products are technically advanced and widely used amongst the customers.

We are defence products manufacturers in India and these components are for most of the defense laboratories and the PSU's who are primarily into defence products.

OUR SERVICES

Casting components/Castings

We are producing Castings with Pressure Die-Casting, Gravity Casting and sand casting depending on the end-use and the volumes required. We are presently manufacturing Casting in Ferrous and Non – Ferrous Metals.

Forged Components/Forged Parts

The Forging Units at the Gayetri Group is mainly associated with the work of Forged Components of both Ferrous and Nonferrous to various international standards with in- house facilities for Heat treatment to attain desired physical properties. Forging components in a very systematic manner using in-house made die and tools, as result maintaining quality of the forged components at its best. The products that we manufacture are ISO certified and comes with total reliability and safety.

Machined Components/Turned Components/Milled Components:

We have a well-equipped Machine Shop with CNC Turning, Turn Mills and Machining Centers. We are supplying our products in fully machined condition in close tolerances of both Ferrous and Non- Ferrous Materials.

Sheet Metal Components/Pressed Components

Sheet metal is nothing but thin and flat pieces of metals. Sheet Metal is used in metal working; it can be cut and bent into a variety of different shapes. Gayetri Group is indulged in the job of creating countless everyday objects that are constructed from sheet metal. Sheet metal is available as flat pieces or as a coiled strip.

Finishing

We have in-house facilities for finishing the parts produced by us. We have facilities for Anodizing and Electro Plating. We are also producing Silver Plated Parts. We are also supplying assemblies and sub-assemblies in ready-to-use condition.
